

It's easy to reflect on the 20 years of good cars, good times, and good people that got Woody's Hot Rodz where it is today. But the important thing about those 20 years is they are driving Woody's into the future full speed ahead!

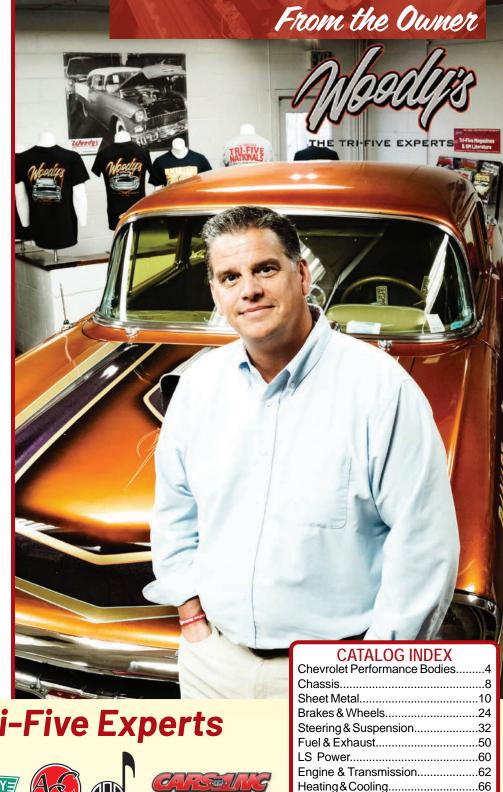

The knowledge gained in those years, the hands-on experience, and the overall love of Tri-Fives grown in that time has not only made us what we are but will better equip us to serve you in the future for all your Tri-Five parts needs!

From the smallest fastener, to one of our Chevrolet Performance allnew steel bodies, there's 20 years of experience, and a lifetime of passion into it. We're proud to call ourselves The Tri-Five Experts thanks to those 20 years, and many more to come!

The entire staff here is dedicated to helping you get your Tri-Five on the road for many years of enjoyment. These cars are meant to be enjoyed, they are meant to be driven and shared with the world. So, get out to your garage and get that classic back on the road where it belongs. I for one, can't wait to see you down the road.

1955 SEDAN BODY

1957 SEDAN BODY

Body Shell with Doors & Deck Lid. \$20,995 Complete Body* \$24,995

Over 200 ALL NEW Woody's Hot Rodz bodies have been built at our shop in Bright, Indiana to date. Whether for a customer's complete turn-key or for a shop across the USA, our Chevrolet Performance Licensed Bodies are built with quality and precision.

What makes Woody's Bodies the only choice?

We understand here at Woody's that we're not the only ones building reproduction bodies in today's market, but we, without a doubt, offer the best one on the market.

Woody's has built over 200 bodies here inhouse, including over 50 bodies used to build full, turn-key cars by us personally. We've seen the prides and the pitfalls of every body we've built, and have been able to adjust production processes here in-house. What makes our life easier as a builder, ultimately makes your life easier as a customer. And that's where a Woody's body will shine above the rest; the knowledge that goes into every single one we build!

Every Woody's Hot Rodz body gets the same treatment throughout the build process as if we were building it to completion ourselves. No "good enough,"

no corners cut, no shortcuts taken, exactly the same as if it was going to be on the cover of a national magazine.

Using the finest Golden Star body panels available, we fully MIG weld every single body for the utmost in quality and structural stability. Sure, it takes more time than spotwelding a body together like our competitor does, but when it comes to our builds, we make no exceptions, and you shouldn't either.

Throughout the build process, we test fit multiple pieces to ensure your Woody's body is as good as it possibly can be. From garnish mouldings, to taillights, to convertible top assemblies (when applicable), to going as far as to fully rope in glass front and rear to ensure no surprises, Woody's gives you the peace of mind needed to start with an aftermarket option.

1955-56-1957 Chevy bodies are all we build. Why? Because we love them! Proudly built in the Midwest by Tri-Five lovers just like you.

Woody's All New Bodies

We offer to fully seam seal before it leaves, taking one more step out of the equation for you or your builder. In the same vein, we also fully weld, then polyfill everywhere there was a factory lead seam, giving you a rough start on all seams, and saving time overall. Once those tasks are completed, the bodies are scuffed totally and completely and put into a PPG epoxy primer that can be bodyworked directly over top of. This makes for a totally sealed body that you won't have to worry about rusting, even if you don't get to it right away.

Even in the shipping process, Woody's is a head above the competition. No wooden pallets here; every body we build ships on a 2"x2" steel cart that the body is firmly mounted to, and is on casters for easy,

one man moving. If you're picking up at our location, and have a chassis handy, we can actually mount your body to your chassis, and save you \$500 when forgoing the body cart.

There's no secrets here. No smoke and mirrors, no closed curtain production (we actually welcome any and all customers to come see our process in-person), no extra work on the customers end, no wiping a body with filler from front to back required, just an honest, quality start for any topquality build. There's simply no better option available!

What is the Process of Ordering a Woody's Body?

Bodies have a minimum 90 day lead time & ship in order based on the date sold. A \$500 credit card deposit may be made at the time the order is taken to secure your order. A 50% deposit of the total amount of the order is due within 7 days of placing your order. Payment can be made via money order, cashier's check or wire transfer. Personal checks are accepted, however your order will not be placed until the check has cleared. All deposits are NON-REFUNDABLE once order has been placed.

How Do You Title a New Woody's Tri-Five Body?

An MSO or MCO is short for a manufacturer's statement (or certificate) of origin. We are not a vehicle manufacturer, thus we do not issue an MSO or MCO. We do, however, issue a body number and invoice that will take the place of the MSO when registering your vehicle in your state.

If you do not have a new or original chassis with a title or MSO, you will need to register the car built with a NÉW body as a "Newly Assembled" vehicle with your state. While we do not issue an MSO, you will be issued a Bill Of Sale (your purchase invoice). This invoice will be considered as an MSO by your state DMV (check your local laws and regulations).

We DO NOT suggest using the VIN plate from an original car transferred onto a NEW Body. Particularly if you are a shop building the car for a customer. This practice can get you into a lot of trouble. However, if you hold a clear title to an original frame to be used under your NEW Body, have the state inspect the frame and verify the VIN before assembly. For 1955-57 Chevrolet passenger car frames, the VIN is stamped in two places on top of the driver's side frame rail. In most cases, your state will issue you a readable VIN plate/ tag that matches your frame and title that may be displayed on the body.

Woody's All New Chassis

Whether you've got a frame that's seen better days, you're looking to upgrade the suspension of your Tri Five, or are simply looking to freshen up the bottom side of your ride totally and completely, our all-new Woody's Hot Rodz OE reproduction chassis is the best foundation possible to start with! Built to exact original specifications for precise body fitment, these frames are available fully assembled in a multitude of suspension combinations from mild to wild, with many options tailored to fit whatever your needs may be! Don't see it how you like it? Call us at 855.567.19557, we'd be happy to spec out a chassis for you!

WOODY'S 1955-57 CHEVY OE CHASSIS

WOODY'S CUSTOM DOOR HINGES

Woody's 1955-57 Custom Door Hinges are designed to allow easy and clean routing of wires to your door, especially useful with power windows. Simply route wires through the milled groove in the top of the hinge and then screw on the cap with included screws. Provides a clean look when the door is open and hides the ugly wires that would usually show. Hinges are sold as a pair.

RIGHT STUFF BRAKE KITS COMPLETE 4 WHEEL DISC BRAKE CONVERSION KITS

Kits include gold master cylinder, proportioning valve & bracket, front & rear rotors, calipers, pads & backing plates, brake cables, hoses, bearings, caps, hardware & spindles in 2" drop kits. Also available with chrome master cylinder, drilled & slotted rotors, & red or black powder coated calipers. Call or shop online for pricing & details......Brake Kits starting at \$859.95

FRONT DISC BRAKE CONVERSION KITS

Disc Brake Conversion Kits for 15"+ Wheels include rotors, bearings, calipers & brackets, dust caps, castle nuts & pins, washers, grease seals, organic pads, backing plates, flex hoses & clips, pedal rod extension, banjo bolts & copper washers, steering arm bolts, master cylinder, booster (power kits), combination valve with bracket & hardware, brake switch pigtail, & forged spindles on 2" drop kits. All kits are also available with chrome master cylinder, drilled & slotted rotors, & red or black powder coated calipers. Call or shop online for pricing.......Brake Kits starting at \$599.95

WHEEL CONVERSION

Wheel Conversion Kits for 15"+ Wheels include rotors, bearings, new calipers & brackets, dust caps, castle nuts & pins, washers, grease seals, spindle gaskets, organic pads, backing plates, flex hoses & clips, pedal rod extension, banjo bolts & washers, steering arm bolts, forged spindles (2" drop only). All kits are also available with drilled & slotted rotors, & red or black powder coated calipers.

.....Wheel Conversion starting at \$379.95

12" ROTOR DROP SPINDLE WHEEL BRAKE KITS

This new and revised kit has almost everything you need to add 12" disc brakes and 2" drop spindles to your disc or drum brake car, including NEW loaded (with disc pads) big piston calipers, 12" one-piece rotors, bearings, seals, dust caps, spindle nuts, hardware, and rubber brake hoses. Works with most 15" or larger disc brake wheels. Provides a full 2" drop and does not change the car's steering geometry.

CPP-5557SWBK-D12......\$429.95

HYDROBOOST BRAKE KITS

No more worries of low vacuum and a hard pedal, CPP's hydroboost setups will get you stopped every time! By utilizing pressure from the power steering system, much like modern heavy-duty trucks, CPP's hydroboost power brake units provide brake assistance, regardless of engine vacuum. These setups are perfect for engines with big camshafts, engines that simply don't make sufficient vacuum, or those looking for the ultimate in reliable braking. The "Show Stopper" package includes: Hydraulic Brake Assist unit with billet aluminum firewall mounting bracket, chrome master cylinder with chrome adjustable prop valve distribution block, chrome accumulator cover, stainless pressure hoses, rubber return hoses and all necessary fittings and hardware for installation.

CPP-5564HBK-SS......."Show stopper" (OS).....\$999.95 CPP-5564HBK-SB......."Street Beast" (OS)......\$1049.95

DROP SPINDLE COMPLETE BRAKE KITS

Kit includes minimum offset stock or drop spindle wheel kit, rear brake kit for original rear end 8" booster assembly and pre-bent hard line kit. Stock spindle kit shown; drop spindle kit varies a little. Drop spindles lower the center of gravity while maintaining the full suspension travel. This will drastically improve the ride, braking, steering and handling.

CPP-5557CBK-D.....Front (Shown)......\$733.95 CPP-5557FRBK-D....Front & Rear......\$1363.95

ORIGINAL REPLACEMENT SPINDLES

Perfect for that concourse restoration or when replacing after market drop spindles to get back to stock height.

Also works with CPP brake kits.

CPP-CP30109.....\$166.95

LOOKING FOR MORE BRAKE OPTIONS? WE'VE GOT A FULL LINE OF CPP, WILWOOD & RIGHT STUFF TO FIT YOUR NEEDS. TALK TO AN EXPERT AT 855.567.1957

Right Stuff Complete "No Brainer" Brake Line Kits are a must when upgrading to a disc brake conversion. Kits include front brake line kit, front to rear brake line, rear axle brake line, rear end flex hose & brake line clip set. Includes easy to understand instructions. Kits available for disc/drum or disc/disc in either OE steel or stainless steel. They are also available for both Power and Manual brakes.

.....Starting at \$158.95

FRONT BRAKE LINE KITS (OS)

Right Stuff Front Brake Line Kits consist all of the brake lines under the hood. This includes the master cylinder to the distribution, combination, and/or metering valve. The left & right front lines that run to the front flexible hoses. Kits are for vehicles with stock style braking systems. 4-piece kits are available for standard drum or power drum in OE quality steel or stainless steel.

......Starting at \$42.95

REAR BRAKE LINE (OS)

Right Stuff Front to Rear Brake Lines go from the distribution, combination, and/or metering valve along the length of the vehicle to the rear flex hose. Lines are for vehicles with stock style braking systems and are based on factory specifications. Available for single or dual exhaust in OE quality steel or stainless steel.

Brakes & Wheels

Want to run a larger brake pedal pad? Woody's Hot Rodz has designed a conversion bracket that allows you to convert any original 55, 56-57 small pedal (non-power brake) to a large pedal

like would have come in a factory Power Brake car. This bracket adds a cool touch to any Tri-Five without breaking the bank. Installation of this billet conversion pad is very simple. Kit comes with all the hardware needed and a Danchuk Power Brake pedal pad. *Not meant for use on standard shift cars.

Steering & suspension components are some of the most commonly replaced items when it comes to getting your Tri Five back in tip top shape. Woody's is proud to offer an all-inclusive steering and suspension rebuild kit featuring premium ProForged components, at a price comparable to other entry level kits! This kit includes inner and outer tie rods, billet tie rod adjusters, a steering linkage rebuild kit, lower ball joints, upper ball joints (available in standard height or tall for additional caster), upper and lower control arm bushings, idler bushings, new pitman arm, even a new dust cover.

Steering and suspension rebuild kits are plentiful, but quality options at an affordable price can be hard to find. Woody's has the answer with our Front End Rebuild Kit. Put together from quality Proforged components, this kit offers premium parts at an exceptional value.

CPP has the newest technology power steering conversion kits for your classic! We've got you covered with our 500 Series for your classic Chevy. All kits include power steering box ready to bolt F to your frame. Kit contents may vary. Uses 3/4"-30 rag joint. Also, positive caster recommended steering. power CPP5557PSK-F.....\$749.95

COMPLETE DOWED STEEDING LIDEDADE KIT (OS)

this kit updates both factory manual and power steering cars. This kit gives you everything to add/ update power steering that mounts to the frame. Kit includes 500 Series steering box, pitman arm, idler arm and center link. CPP-5557PSU-K.....\$576.95

STEERING LINKAGE KITS COMPLETE KIT (OS)

nust when upgrading to a power steering box for maximum performance and handling. No modification required. Includes complete new center- link, pitman arm, and idler arm, inner and outer tie rod ends and aluminum tie rod adjustment sleeves. This kit is the perfect compliment to our Totally Tubular control arm kits when needing those final pieces. Basic kit does not include tie rod ends or sleeves.

CPP-5557SLK-CP.....\$239.95 CPP-5557SP-A.....\$72.95 35

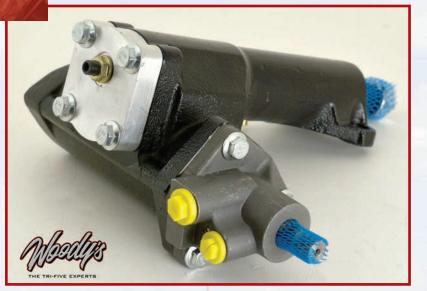

A new reproduction forged to look and perform just like the original steering arms. No more having to grind them down or dispose of them when using the old style spindles and brake kits. Install these when you upgrade the brakes, spindles or lower control arms.

WOODY'S HOT RODZ "500 STYLE" POWER STEERING BOX

Power steering is undoubtedly one of the easiest, and biggest, "creature comfort" upgrades you can make to your Tri-Five. Woody's makes it easy with our 500 series power steering box! Woody's boxes are a direct bolt-on, no drilling/cutting required, and pair perfectly with a tilt column! And for those starting from scratch, we have complete power steering kits featuring this box as well!

WHR-500PSB......\$399.95

CPP STEERING BOXES

CPP 500 Series power steering boxes are the only boxes on the market today manufactured with one-piece housing and all-new parts and retaining the factory pitman arm. They have been factory-tested to ensure quality and reliability. The CPP 500 Series power steering boxes feature a 14:1 ratio that provides superior directional control and road feedback, as well as a more stable feel to the driver. Their open-center, rotary-type valve provides smooth operation throughout the steering range. The integrated mounting cast-in bosses eliminate the need for external brackets and shims. Designed to fit original or aftermarket steering columns, CPP 500 Series power steering boxes will provide your vehicle with the performance steering that you have been searching for.

WOODY'S SUSPENSION PACKAGES

Tired of your Tri-Five handling like a boat? Sick of sawing that wheel back

and forth at highway speeds? Looking to bring that archaic suspension into the 21st century? Woody's makes it easier and more affordable than ever with our suspension upgrade packages! All components are carefully selected for compatibility, making for a true "bolt-on" installation. Each kit is compatible with all models, stock or drop spindles, and leaf spring pocket kits (except add-on rear swaybar).

Note: All kits are recommended for use with power steering only, as all kits are designed to increase caster angle

CRUISER PACKAGE

A great, budget minded suspension upgrade package! This kit utilizes made in USA poly-button 2" drop 5-leaf rear springs, 2" drop front coil springs, a 1" front sway bar kit, KYB Gas-A-Just shocks front and rear, and a set of offset upper control arm cross shafts to correct the lack of caster these cars are plagued with.

WHR-Cruiser.....\$799.95

ROAD HOLDER PACKAGE

The next step up! This kit utilizes the same made in USA poly-button 2" drop 5-leaf rear springs, 2" drop front coil springs, a 1" front sway bar kit, and KYB Gas-A-Just shocks front and rear as our Cruiser kit, but steps up to a set of Woody's control arms.

WHR-Holder.....\$1099.95

Steering & Suspension

ULTIMATE PACKAGE

Just as the name implies, the ultimate in bolt-on handling! Woody's control arms, Viking Performance front coilover kit with billet double-adjustable shocks, a 1" front sway bar kit, poly-button 2" drop 5-leaf rear springs, and Viking Performance double adjustable billet rear shocks.

WHR-Ultimate.....\$1799.95

4-CORNER COILOVER PACKAGE

Want big-time handling capabilities without the big price tag of the other guys? Woody's is here to help! Going a step further than the Ultimate Leaf Spring package, the 4-Corner Coilover kit substitutes the drop leafs for a triangulated 4-link kit out back with a set of Viking double-adjustable billet coilovers, Woody's control arms, Viking Performance front coilover kit with billet double-adjustable shocks, and a 1" front sway bar kit. *Welding Required*

VIKING DOUBLE ADJUSTABLE FRONT COILOVER KIT

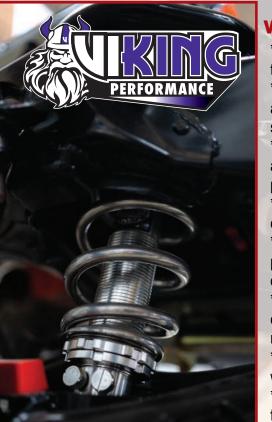

Whether you're just looking to nail the perfect stance, or take your Tri-Five's handling capabilities above and beyond, double adjustable coilovers from Viking are the clear choice! Viking's direct fit coilovers require no frame modification whatsoever, utilizing a T-bolt lower mount similar to your factory shocks, and tapered springs that fit directly to the factory spring pocket. Compatible with stock and most aftermarket tubular control arms set up for factory coils.

Features include:

- Compression and rebound adjustment
- Billet aluminum body
- Powdercoated coil springs
- Bearing plates for easy adjustment.
- Includes spanner wrenches at no additional charge
- 450lb spring rate for small block/LS
- 550lb spring rate for big block applications.

Please note, while coilover shocks do allow ride height adjustability, at highest possible "usable" height, expect to be roughly 1" lower than stock. Take this into account when spec'ing the rest of your suspension. Have any questions? Call or email the Tri Five Experts at Woody's and let one of our knowledgeable staff help you set up your suspension to meet all your needs!

VIK-A225.....\$609.95

VIKING DOUBLE ADJUSTABLE REAR COILOVER KIT

- * Shocks are double adjustable allowing the user to independently adjust compression and rebound.
- * Shocks are digressive valved on compression and rebound, which allows for higher force at low shaft speeds.
- * Huge adjustment range allows the user to adjust settings for comfortable cruising to high performance racing, and everything in between.
- * Evenly spaced valving adjustments from click to click.
- * 19 positions of compression adjustment and 19 positions of rebound adjustment for a total of 361 different valving combinations.
- * Viking's double adjustable shocks are priced close to the single adjustable price of most other manufacturers.
- * Viking focuses on double adjustable shocks only, which means a lower price for you!
- * Shocks can be rebuilt or revalved by the Viking factory or any authorized rebuilder.

BUILDERS OF THE GIVEAWAY CARS

We know what it's like to deal with the woes of a stock 55-57 rear: leaky ends, toothpick-sized axles, miniscule ring gears, outdated brakes, hard-to-find service parts, the whole 9 yards. The problem is, for the average hot rodder, some of the 9" options on the market are just simply out of reach price-wise. Thankfully, for those looking for a stronger and more reliable choice than the factory rear for the street, Woody's offers their "Better Budget" 9" kit!

These crate rearends are a direct bolt in, stock width option designed to directly replace you '55-57's stock 10-bolt. Available with your choice of gear ratio from 3.00 to 4.56, cast iron third member, 31 spline axles, trac-loc posi unit, all the features that make the 9" as great as it is! On top of that, they come with a complete rear disc brake kit to make for a totalpackage!

Whether you're building fresh, or looking to upgrade your existing car, these rearends will keep you on the road, and leave money in your pocket for other places on your Tri-Five!"....

Add rear disc brakes for \$349. Upgrade to aluminum 3rd member \$400. O/S Shipping \$150

COMPLETE REAR ENDS

WOODY'S LS SWAP KIT

The crew at Woody's Hot Rodz has yet again used their years of building experience to take the guesswork out of working on your tri-five, this time bringing you their LS Installation kit!

Kit includes:

- Side mount conversion kit, tubular transmission crossmember, and adjustable LS to standard GM 3-bolt motor mount brackets. The adjustability of these mounts allow you to place your engine in perfect position for your setup, allowing you to take into consideration valve covers, accessory drives, and the like without leaving you bound to one fixed position.
- Holley 302-1 oil pan. The narrow rear sump and shallow front depth give you all the room you'll need at the crossmember and steering linkage both, with a clean look to boot!
- Holley Sniper EFI fuel tank with your choice of 255 or 400LPH fuel pump and a complete WHR LS fuel line kit, with -6 braided hose, filter/regulator assembly, and all necessary fittings.
- Hooker cast LS exhaust manifolds, in ceramic coat of your choice.
- Hooker stainless downpipes to hook into you exhaust to round out the kit.

Overall, this is the most inclusive kit on the market for putting an LS into your Tri-Five, hands down!

DON'T FORGET THE FUEL LINES!

Putting an LS into your Tri-Five? Woody's is here to make the process as easy as possible with our fuel line kit! This onestep package simplifies the entire process with everything you need to fuel your fire.

Our fuel line package contains everything you need to hook a Holley Sniper EFI tank to your LS powerplant's stock fuel rail, including -6 black braided hose, black anodized Earl's fittings, and Corvette-style filter/regulator.

Designed for cars using Holley's Sniper EFI series fuel tanks.

HOLLEY LS MID MOUNT ACCESSORY SYSTEM (OS)

The accessory drive is always a struggle when putting an LS into a Tri-Five. Luckily, Holley has all the bases covered with their mid-mount accessory drive setup!

At the heart of the system is a "bracketless" design (Patent Pending), where the accessories bolt directly to the water pump for a clean, integrated form. Among the many swap friendly features are bottom heater outlets for clearance in tight applications. The Holley designed alternator is just as innovative. This premium alternator utilizes 6-phase technology as found on the C7 Corvette.

The water pump also shares its design efficiencies with

that of the C7 Corvette. The compact and reliable SD7 A/C

compressor and Type II P/S pump with baffled reservoir are also integrated. All accessories are included; the

water pump, A/C compressor, Alternator, P/S pump with

reservoir, and the crank damper. All pulleys and the belt

are supplied. Even heater hose adapters, power steering

to -6 AN hardline, and the alternator plug/harness are

included. This is your "one stop shop" for the accessory

Pypes exhaust kits are some of the finest out-of-thebox options for your Tri Five! These kits are designed to deliver enhanced performance, provide extra punch in the passing lane and improve gas mileage. Fabricated using the highest quality materials, 16 gauge, mandrel-bent, stainless steel pipe ensures maximum exhaust gas flow, which can significantly boost horsepower. Mufflers, X-pipe, and all piping are stainless constructed and precision matched to deliver the ultimate in longevity, sound and performance. Cad plated/stainless clamps and stainless hangers are included in most systems.

CPP MID-LENGTH CERAMIC COATED LS SWAP HEADERS

Finding headers that will fit your LS swapped 1955-57 Chevy can be stressful! That is why CPP now offers these midlength LS headers with 1-7/8" primaries made specifically to fit all Tri-Five Chevy cars. These work with CPP 500-Series gearboxes and CPP engine mounts plus their mid-length design is great for lowered vehicles that have less ground clearance. The headers are ceramic coated for durability and ship with everything you'll need to install. The 3" collectors even come with O2 sensor bungs and the collector flanges are clockable for more flexibility when installing.

CPPHD-5557LS... \$349.95

CPP MID-LENGTH CERAMIC COATED HEADERS WITH SMALL-BLOCK

Even though small-blocks have been powering 1955-57 Chevys since the beginning, it can still be a gamble whether or not a set of headers will fit a particular Tri-Five. CPP takes the guesswork out of ordering a set of headers for Tri-Five cars with their new mid-length ceramic coated headers. They are made specifically to clear CPP's 500-Series gearboxes and engine mounts plus the mid-length design is great for lowered cars with less ground clearance. The headers have 2-1/2" collectors with clockable flanges and a primary tube diameter of 1-5/8."

CPPHD-5557SBC..... .\$329.95

HOOKER LS EXHAUST MANIFOLDS

Looking to clean up the engine bay of your LS swapped Tri Five? Hooker has the answer! Hooker cast iron exhaust manifolds have been designed to hug close to the engine block, and their contoured design aims the exhaust directly at the exit port for improved flow. Being cast iron means they will provide years of leak-free performance with less under hood noise than traditional headers. Plus, their shorty design means you can route exhaust tubing close to your frame/floor pan for maximum ground clearance.

WOODY'S ENGINE & TRANSMISSION MOUNT KIT (OS)

Finally an all in one V-8 engine and transmission mount kit that includes all hardware and mounts to install your V-8 engine and trans into your Classic 1955-57 Chevy Belair. Engine mounts will accommodate both small and big block engine as well as LS engine with adapter brackets and are available in stock locations or 3/4 forward for those running an HEI distributors. Transmission Crossmember will accommodate most all GM transmissions and is a clean tubular design.

- Black powder coated for durability and designed for maximum exhaust clearance
- 1018 mild steel and 1020 DOM tubing
- Weld in transmission cross member frame brackets
- Shorty or 3/4 length headers recommended with forward location mounts
- Rubber mounts included. Polyurethane available Add \$54.01
- LS conversion works with poly or rubber mounts and use stock location brackets
- Works with seamed or seamless frames
- Note: TH350, Power Glide, Muncie, 700R4, 4L60E trans uses 3-1108 mount (3.750"), TH400 uses 3-2268 mount (4.250") Specify transmission type. WHR-30350.....starting at \$189.95

Finally, a high-quality, affordable cooling option for your Tri-Five! No need to pay extra for options like dual 1.25" tubes, transmission cooler provisions, and full polished finish, Cold Case gives you these options standard on every radiator they offer. Cold Case radiators install directly in place of a factory radiator, no modification required, for any OEM configuration, with an OEM look to boot. On top of all those features, Cold Case radiators are backed by a manufacturer's lifetime warranty to boot! Radiator and fan combos include a 16" puller fan kit and special aluminum shroud setup.

Cold Case Radiators.....starting at \$389.95

HOT RODS BY DEAN UNIT

Hot Rods by Dean Radiator Modules offer a clean, simple & functional design for your Tri-Five Chevy. These Radiator Modules maximize engine compartment space on SB-Chevy, BB-Chevy & LS Engines with serpentine drives. The all steel Module Core Support frame fits in the stock engine bay and moves the radiator & fans forward, allowing the most room possible for the additional space needed when using a serpentine system or blower

Modules include a high efficiency aluminum cross-flow radiator with two rows of 1" tubes and a heavy duty 2.5" core. Includes an aluminum fan mounting bracket and dual 14" Maradyne high performance electric fans that produce 2135 CFM per fan. A Maradyne electric fan relay harness with 185° thermostat and dual fan relay keep the fan moving and keep everything plenty cool. modules also include a polished aluminum 16 lb radiator cap, custom fit aluminum overflow tank with aluminum cap. Modules come completely assemble and the Core Support frame come in a satin black finish......starting at \$2,994.95

MATTSON RADIATORS

A Mattson's Custom Radiator ultra-premium cooling unit will keep you running, and looking, as cool as it gets! Their custom-built, all-aluminum, US made cooling units offer good looks and unsurpassed cooling capability, and can be tailor fit to your exact application, *including an all-new engraving service!*

Handmade in the USA! 1955-57 Chevrolet "Complete Package" designed for your motor and guaranteed to fit. Comes complete with support ('55 setup includes latch and latch support) polished aluminum radiator dual SPAL medium profile 13" electric fans, trans cooler, space for temp sensor, A/C package (condenser, hardlines bulkhead fittings, brackets frame cover, and relay) Overflow package, Relay Sensor package, Hardware kit, Mattson's Radiator Cap and instructional DVD. The Gen IV is Vintage Air's most powerful and intelligent climate control system. The Gen IV uses an exclusive fully electronic microprocessor control system that eliminates cables or vacuum connections. Separate high-capacity copper parallel-flow heat coil and aluminum plate-and fin-cooling coils provide outstanding performance and instant temperature adjustments.

Additional features include variable blower speed and dash/floor/defrost blend.

VINTAGE AIR COMPLETE KIT

**Complete kits include everything in the evaporator kit plus all under-hood components such as compressor engine brackets condenser with brackets preformed refrigerant lines drier fittings hardware and installation instructions.

- Fly-By-Wire fully electronic servo motor controls with no cables or capillary tube to route
- Infinite just-right-temperature air blending
- Infinite blower fan speed adjustment
- High-volume dehumidified defrost mode
- Separate high-capacity aluminum plate & fin cooling
- Copper/brass CuproBraze™ parallel-flow heater coil
- Mounts behind the dash
- Uses your factory system controls with our patented **Electronic Cable Converters**
- Flat steel firewall cover panel
- Replacement molded glove box (reduced capacity)

WOODY'S CUSTOM PRODUCTSA BUILD DOESN'T LEAVE THE SHOP WITHOUT THESE...

COOL & OUIET MAT

Woody's Hot Rodz Cool and Quiet Mat includes 10 sheets that measure 18" x 32" and cover 3.3 square feet. What if there was a product that encompassed the sound deadening capabilities of all the leading acoustic dampening mats on the market, that had the cooling capabilities of dedicated heat insulation? Woody's has made it happen with our "Cool and Quiet" mat! Óur new and revolutionary mat contains a layer of butyl, mated to foil, like everyone has grown to love over the years for it's sound deadening characteristics. The magic happens when it's mated to the top temperature-control foam layer, providing not only a top-of-the-line level of sound control, but a cooler, more comfortable interior, all in one shot. The best part? The price! Even though it accomplishes more, Woody's Cool and Quiet mat comes in cheaper than its dyna-mic competitors, and more than comparable to other lower-line options with a unmatched level of quality putting it head-and-shoulders above the rest!

WHR-CQM....10 18x23 Sheets.....\$199.95 WHR-CQK.....CQMx2&HSI(right) & a roller...\$399.95 WHR-ROLLER......\$12.95

HEAT & SOUND INSULATION

Heat and Sound Insulation is made from acoustic foam to absorb unwanted sound. Aluminum outer layer provides heat reflective surface protection to 239 degrees F. 14.39 sq ft. Measures to 54" x 39". Made with EPDM rubber and is peel and stick. Typically uses 4 rolls for

WHR-HSI-5439.....\$35.95 Per Roll

TRUNK FLOOR SPARE TIRE DELETE

This Trunk Floor Spare Tire Delete is designed as an easy weld-in to cover and fill the spare tire hole.

INNER OUARTER SEALS

CUSTOM DOOR HINGES

Woody's Custom Door Hinges are designed to allow easy and clean routing of wires to your door, especially useful

power windows. Simply route wires through the milled groove in the top of the hinge and then screw on the cap with included screws. Provides a clean look when the door is open and hides the ugly wires that would usually show. Hinges is a stock-style hinge and fits all 1955-57 models. Hinges are sold as a pair.

WHR-44643.....\$315.95

POWER BRAKE PEDAL KIT

Want to run a larger brake pedal pad? Woody's Hot Rodz has designed a conversion bracket that allows you to convert any original 55, 56-57 small pedal (non-power brake) to a large pedal like would have come in a factory Power Brake car. This bracket adds a cool touch to any Tri-Five without breaking the bank. Installation of this billet conversion pad is very simple. Kit comes with all the hardware needed and a Danchuk Power Brake pedal pad.

*Not meant for use on standard shift cars.

Woody's Exclusive

LS PEDAL BRACKET CONVERSION

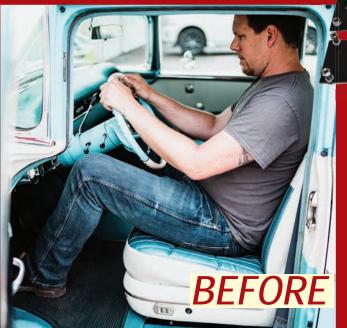

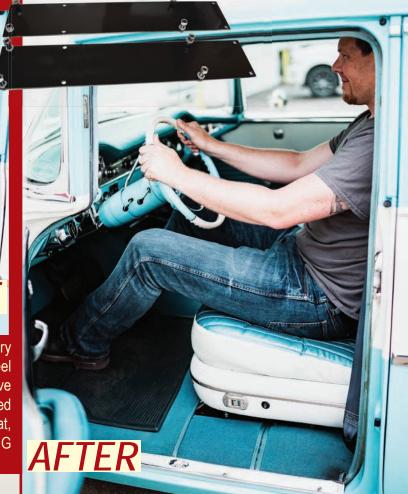

LS engine swaps are becoming very popular for Tri-Five Chevys. LS swaps with drive by wire pedals present a few problems such as, how to mount your new pedal to your Tri-Five firewall. The guys at Woody's Hot Rodz have a easy solution. This LS bracket allows you to mount your Drive by Wire pedal to this bracket which easily mounts to any 1955, 1956 or 1957 firewall. The kit comes with a block off for the stock throttle pedal hole as well.

*Does NOT work with recessed firewalls or with LSA pedals. *Pedal NOT included. Use GM part number 10379038. WHR-30401.....\$89.95

DIL'S BIG 'N TALL SEAT BRACKETS

For those folks 6-foot or taller, or bigger around, the factory seat position can simply be too close to the steering wheel for comfort. Our all-new Big-N-Tall Seat Brackets move the front seat back a full 4", with no modification required to either the seat or floor pan! Simply unbolt your seat, bolt down the brackets, reinstall your seat, and enjoy BIG improvements in driver position!.....\$119.95

Woody's Exclusive

SPREADER BAR

REAR SEAT DELETE

No gasser project is complete without a spreader bar up front! Originally designed as a means to skirt bumper laws back in the day, a spreader bar makes for a finished look up front when running without a factory front bumper setup. Made from 2" mild steel, these all-new spreader bars are available in raw finish or chrome plated. Available exclusively through Woody's Hot Rodz.

WHR-SPREADER BAR.....starting at \$249.95

SPEAKER & CLOCK DELETE

The matched engine turned billet speaker mask is designed to balance the distinctive design of either brushed of machined billet et by fitting integrally into the existing zel and clock. (Bezel not included)

WOODY'S 4-DOOR TO 2-DOOR CONVERSION

Struggling to find that perfect rust-free 2-door builder? Woody's Hot Rodz has another option! Start with a 4-door sedan, utilize our conversion package, and build the 2-door cruiser of your dreams!

Our conversion package is a "one stop shop" for changing over your 4-door to a 2-door, all while keeping correct proportions. The package consists of both left and right full outer quarter panels, outer rockers, door shells, custom fabricated inner quarter sections, stationary guarter glass, and correct window seals. On top of all this, Woody's Tri-Five Expert tech team has the know-how to get you through the conversion step-

Includes both left and right full outer quarter panels, outer rockers, door shells, custom fabricated inner quarter sections, stationary quarter glass & correct window seals.

3-POINT NOSTALGIA ROLL BAR

Those red 3-point rollbars were a staple of the 60's and 70's dragstrip scene, and Woody's has brought them back! Modeled off the originals, these true-to-form pieces will add the finishing touch of a competition look to the interior for your period-correct built.

Designed for stock floors, but can be easily modified to work with most rear seat delete kits.....\$799.95

1955 NOMAD FENDER TRIM

Whether your Nomad's front trim is MIA, pitted beyond repair, or you're looking to add some flair to another '55 model, Golden Star and Woody's have the answer! For years, these EXTREMELY hard to find trim pieces were costly, and beyond difficult to find, but a viable option is finally available. These true-to-original, expertly

finished, high-quality reproductions will be at home on any level of build!

HOLLEY RETROBRIGHT LED HEADLIGHTS

Holley

AVAILABLE FOR 55, 56 & 57s!!

Looking for LED brightness and reliability, but don't want the modern look associated with most LED headlight options? Holley's new line of RetroBright headlights are the answer! These plug-and-play options keep the old-school look of a sealed beam headlight, but use a dual-range LED cartridge for modern lighting power and reliability!

No additional ballasts to mount, no additional wiring required, Holley's RetroBright headlights are a direct plug-and-play option. Simply remove those old sealed beams, install the RetroBright headlights the same as you would an old T3, and enjoy the best of both worlds....Modern lighting, with a classic style!

The RainGear 2-Speed Wiper System is a lever & link wiper system that replaces the original cable and spool system. This system has both high & low speeds. This system comes complete less assembly lube, arms & blades, escutcheons & knobs for the switch. All of those stock pieces will fit on this system. Includes a five piece metal bridge assembly with adjustments that is designed to fit the 1957. The RainGear unit cannot be controlled by any GM column mounted wiper switches, the included switch must be used. Wiring diagrams and installation instructions are included. Made in the USA.

Dakota Digital

etrotech

Looks like a stock cluster with just three gauges, but in fact there are six readings! The tach, oil pressure and voltage are made up of hidden LED bars, only visible when the key is on. A large TFT message center is front and center while the rest of the system looks straight out of 1957. Fits into your original cast housing; chrome rings available separately.

The RTX series is the latest from Dakota Digital, focused on retaining that stock look without sacrificing the late-model features you love. Every effort has been put forth to incorporate OEM design elements regarding the layout, face styling and indicators. A casual glance may dismiss these as original equipment, but once you hit the switch and the LED backlighting comes on in your favorite color scheme, all doubts will be removed.

The VHX Systems fit directly into the stock instrument bezel of a 1955-57 Chevy Car without modification, adding a wealth of features to this iconic vehicle.

Fully lit needles, backlit faces, and highly visible LCD message centers are a few of the things that you can see which set the VHX Series apart from yesterday's traditional approach to instrumentation. A few of the features which you don't normally see are the micro-controlled precision stepper motors, solid state sensors for unparalleled accuracy, and user-customizable display feedback,

all supported by an unrivaled limited lifetime warranty which has become the standard for Dakota Digital instrumentation systems. Requires the use of the Original or Aftermarket bezels (not included, sold separately).

MODERN RADIOS

Looks like the original but with today's technology! Short 2-3/4" depth allows easy installation with air conditioning or electric wipers. Analog controls look & feel like the original. LED dial lights will never need replacing. Digitally tuned AM/FM/Stereo with 10 total presets - 5 AM & 5 FM. Standard Motorola antenna jack. Maximum 180 watts of power (45 watts x 4 speakers 4Ω, 14.4V, 1kHz). Retains presets & other settings during power disconnect. Includes 3.5mm aux jack for input from iPod/Phone, satellite radio or MP3 player. The 1957 Wonderbar duplicates action of original, seeks UP, then rapidly returns to bottom of dial and starts over. 55 & 56 are available with wonderbar.

USA-630

The USA-630 is designed to provide the best in audio technology wrapped in a classic car stereo look. It will fit your car's stock dash without any modifications required. It has been designed with a bezel containing your car's manufacturer logo as well as large OEM style push-buttons to compliment your dash. When it comes to electronics the USA-630 boasts modern features like a USB input for flash drives to playback MP3/WMA song files and a dock for your iPod. When connected to these devices the radio's digital display will show artist, song, album titles and allow song navigation through the radio itself. The USA-630 is compatible with our optional BLUKIT which enables bluetooth music streaming from your enabled phone as well as hands-free mobile calling through the vehicle's speakers & BLUKIT's built-in microphone. With 300 watts peak the radio provides plenty of power but additionally contains four RCA pre-outs for optional amplifiers. It also comes with Auxiliary inputs for satellite radio tuners, iPhones or any portable player you may wish to use.

USA-740

The USA-740 has the classic good looks and features you have come to expect from the leader in classic car OEM fit radios. The AM/FM RDS (Radio Data System) tuner has been upgraded from previous models with 25 pre-sets (15FM/10AM) and the RDS tuner shows station / song and artist on the LCD display. The unit has 300 watts Peak of power and the front LCD panel is user selectable in 7 different colors, white, blue, red, cyan, green, yellow or pink and it will auto store (automatically fill) your presets with the strongest stations. There is an LCD dimmer control and the clock or function display priority is user switchable. Bluetooth and Remote Microphone included.

Features...AM-FM Stereo, 300 watts, USB port for Flash Memory MP3-WMA-FLAC or WAV playback. Direct 10 CD Changer Control, Alpha Numeric Display for MP3-WMA-FLAC or WAV files, Electronic tuning and Volume Control with Last Volume Memory, Loudness Compensation for Low Volume Listening, Front/Rear Fader, Left/Right Balance, Digital Clock, 2-Channel RCA Inputs for Satellite and more, Separate Bass/ Mid/Treble, USA/Euro/Japand/Russia Compatible Tuner (USA Default), Hi-Volt 4 channel RCA Pre-Outs, Hi-Volt Subwoofer Line Out with Level Cross-Over Adjustments and Power

SLIDEBAR

The Slidebar Radio provides enthusiasts with a completely authentic looking classic car or truck stereo without sacrificing the latest in technology. Best of all it will fit in your vehicle's dash without any modifications required. This provides the best of both worlds, a true working slidebar display and a full-featured digital display in the same stereo. Simply slide the bar in the center of the radio to the right and hide the analog slidebar revealing a full-featured digital display underneath. The slidebar is designed with large OEM style push-buttons to compliment the look of your classic car. Its digital display provides seven backlit color options designed to match the color of your dash instrumentation. When it comes to technology the Slidebar is designed with the best features available including a USB input for flash drives and a Dock for your iPod. When connected to these devices the radio's digital display will display artist, song, album and allow song navigation through the radio itself. The slidebar is compatible with our optional BLUKIT which enables bluetooth streaming from your enabled phone or device as well as hands-free mobile calling through the vehicles speakers & BLUKIT's built-in microphone. With 300 watts peak the radio provides plenty of power but additionally contains four pre-outs and one subwoofer out. The Slidebar also comes with Aux-in for optional satellite radio as well as our optional compact CD/ DVD player.

POWER BRAKE PEDAL KIT

Want to run a larger brake pedal pad? We have designed a conversion bracket that allows you to convert any original 55, 56-57 small pedal (non-power brake) to a large pedal like would have come in a factory Power Brake car. This bracket adds a cool touch to any Tri-Five without breaking the bank. Installation of this billet conversion pad is very simple. Kit comes with all the hardware needed and a Power Brake pedal pad.

SPARK PLUG WIRE

1956-57 Lower Support Shields.......\$35.95 DAN-1446

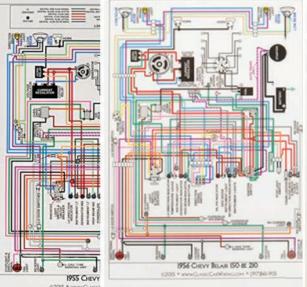

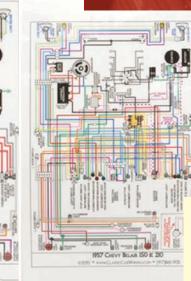

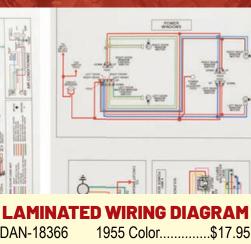

- Original headlight bucket grommets, parking light weatherproof boot, tube assemblies, and light sockets are included. Extra long leads are supplied for custom routing.
- Accessory disconnect provided for connections to power windows, power seats, cruise control, fuel pump, power door locks, extra radio (CB), or optional power accessory.
- New floor dimmer switch is provided. Wire length and connection accommodate original floor mounted dimmer switch.
- · Standard turn signal flasher, hazard flasher, and horn relay mounted on fuse panel.
- Fuse box and custom mounting plate are designed for bolt-on, under dash installation. All required hardware supplied.
- Steering column connectors will plug directly into most aftermarket steering columns as well as 1969 and later GM columns which utilize stock GM turn signal switches. The original column can also be wired by using the supplied mating connector and terminals
- Heater control panel lighting, power, and blower motor leads are included for original style heaters as well as aftermarket heat and AC updates.
- Instrument Cluster wiring is designed with a "cluster harness disconnect" system for easy service and assembly. All original terminals, connectors, and light sockets are also supplied for original cluster gauges.
- Replacement headlight switch with internal circuit breaker, retention collar nut, adjustable length shaft, custom knob, extra connectors, and instructions are included.
- Original design rear body weatherproof boot and tube assemblies and original design light sockets make attachment to original
 or reproduction tail light assemblies an easy plug-in.
- Rear body harness assembly is designed to plug into the main harness in the original under dash position utilizing existing retention clips. License plate connectors and terminals included. Fuel tank sender wire and terminal included. Special terminals included for original.
- New ignition switch is included with indexed connector. Additional connectors and instructions are provided to use the original 1955-56 ignition switches, original style door jamb switches, and overhead dome light.
- Front lighting includes extra long leads for special routing when custom under hood appearance is desired. All headlight, park light, and directional light connectors and terminals are provided, as well as a switched trigger wire for electric fan relay (usually recommended with AC).
- Engine wiring includes connectors for points type and HEI distributors. Power and tach connectors supplied for GM HEI distributors. Alternator connectors are supplied for GM "SI" series internal regulator and "one wire" alternators.
- Engine wiring includes starter and gauge sender leads for water temp, oil pressure, and tach. Heavy 8 gauge alternator leads are supplied. Power circuits are fusible link protected included.

Still not finding what you're looking for? If it's out there....we've found it.

Being a full scale shop for close to 20 years, we know what works on these cars, and if you're having an issue, we've probably had it too. We've done our research and sell the right parts to get your 1955, 1956, 1957 Chevy back on the road.

Visit us online at woodyshotrodz.com or call 855.567.1957 to speak to one of our experts.

Shipping & Returns

Woody's Hot Rodz Standard Shipping applies to the continental 48 United States. HI & AK will be handled on a case by case basis. Due to size and weight of most of our items, we ship to a physical address or PO Box in the continental US. For any other shipping arrangements, please contact us via e-mail at sales@woodyshotrodz.com to determine if we are able to ship to your destination. We shipping USPS & UPS.

INTERNATIONAL SHIPMENTS

Woody's Hot Rodz will ship internationally on a case-by-case basis, whether it is direct or to a receiving service with a US address. Buyer will be responsible for actual shipping as well as applicable duty and taxes. All international shipments must be quoted ahead of time by emailing dave@ woodyshotrodz.com Some items may not be available for international shipment, or carry additional handling charges to do so. All international orders must be pre-paid via wire transfer.

SHIPPING CHARGES FOR NON-OVERSIZED, NON-TRUCK FREIGHT ITEMS WILL FOLLOW

Purchases from \$0 to \$100	\$9.99
Purchases from \$100.01 to \$250	.\$19.99
Purchases from \$250.01 to \$500	.\$29.99
Purchases from \$500.01 to \$700	
Purchases from \$500.01 to \$700	\$39.5

Purchases from \$700.01 to \$1.000......\$49.99 Purchases from \$1,000.01 & \$2000.00....\$69.99 Purchases from \$2,000.01 & up......\$79.99

Offer is subject to adjustment due to returns, cancellations, and exchanges.

AMERICAN TRI-FIVE ASSOCIATION SHIPPING

Members of the American Tri-Five Association receive free shipping on orders over \$100 with non-freight items. If you are a member, please visit the American Tri-Five Association site for more information on free shipping. If you would like to become a member, please do so here. If you are not a member, current shipping fees apply.

OVERSIZED ITEMS & TRUCK FREIGHT

Oversized items are those which exceed the normal size and/or weight limitations of our selected carriers and are therefore charged an additional fee to ship. Those items are noted throughout our website. Some items are too large to be shipped UPS and need to be shipped truck freight. These items are noted throughout our website. Orders requiring truck freight shipping cannot be shipped COD and must be prepaid with a credit card. All sales requiring truck freight carry a 2-3 business day processing time and are unable to be canceled once placed (please see * below under returns about cancellation/ processing fees). Please note that, according to the freight companies we utilize, if there is no one at the delivery address to assist the driver with unloading the freight, you may be charged a \$50 fee in addition to the freight charges already incurred.

RETURN POLICY

If you need to return a part to us for any reason, please call before shipping the part back to us. We will discuss the problem and issue a Return Merchandise Authorization number. No returns will be accepted without an RMA number.

- Unless the part is defective, or we shipped it to you in error, you will be responsible for all shipping charges incurred.
- All returns outside of defective/erroneous parts will be subject to a 20% restocking fee, unless refunded as store credit or exchanged for another part.
- · All returns/exchanges outside of defective component must be uninstalled, and in sellable condition. If an item bears any indication or being installed, it will not be accepted for return, and buyer will be responsible for return shipping. Any item outside of factory blister packaging, or with its original packaging discarded or destroyed, is not eligible for return outside of defect.
- Returns made within 30 days of receiving the part can be refunded via check or credit card refund.
- Returns made after 30 days of receiving the part will be given store credit, unless item is defective.
- Due to manufacturer restrictions, any part past 90 days of receipt is no longer eligible for return, whether defective or not.
- Due to non-refundable deposits paid to manufacturers, no returns/cancellations will be accepted on non-stocked "made to order" items once the initial order is placed, including but not limited to TMI interiors, custom frames/suspension components, wheels, radiators, etc.

*Cancellation/Processing fee includes, but is not limited to, merchandise (parts) order placed from vendors of parts that are not commonly sold by WHR and/or warehoused at their facility, time spent with customer placing orders, credit card fees, shipping fees for parts, time spent pulling parts, organizing vendor/drop shipments, consuming space in warehouse and other manhour associated with part orders, in addition to time ordering from vendors, canceling parts, and parts now shelved if cancellation takes place once parts have shipped/or arrived from vendor

DAMAGED SHIPMENTS & DEFECTIVE PARTS

Please inspect your package immediately upon receipt in the presence of the delivery person. Examine the box for any visible outside damage, as well as the parts inside for any hidden damage that may have occurred during shipping. In the event that your package is damaged in transit, you must notify Woody's Hot Rodz within 7 days of receipt. No damage shipping claims will be taken more than 7 days past point of delivery. If we have shipped a defective part to you, please call us immediately.

PARTS SHIPPED IN ERROR AND SHORTAGES

Again, please check all packages immediately upon receipt and notify us within 10 days of delivery if you discover an error or shortage. We will ship the correct item to you or give you credit for the price of the missing part if we are notified within 10 days of delivery.

UNDELIVERED SHIPMENTS

UPS and most other carriers will leave a notice at the shipping address and/or return on another day to attempt delivery if they are unable to deliver your shipment to the specified address. If they are still unable to make delivery, the package will be returned to us. We will contact you to make further arrangements. If you refuse a shipment of parts which you ordered from us, the package will be returned to us. We will contact you to make further arrangements. In any of the above events, you will be required to pay the shipping charges incurred before we will reship the order or ship any new orders. You may also be subject to a 20% restocking charge.
